Instructions for Auto Run CD

A PowerPoint Presentation designed and created by Shirley Bell for Boxer Club of Canada Inc (copyright)

Instructions:

Place CD in you CDRom drive. It should start automatically.

It may take a few moments, so please be patient. Then a screen will pop up saying PowerPoint Viewer. You will need to click on '**I Accept**'.

Once you have done this, the CD will go to the Title page. Again, this may take a few moments, so be patient. Nothing is loaded on your machine. The CD is set up to auto run on all PC machines.

You will not need to click on each slide to advance it to the next, this will happen automatically after 15 seconds per slide.

If your machine is older, then you will need to be a little patient.

To end the CD presentation, you will need to hit the escape button on your keyboard.

The escape button is located on the **Top left hand corner** of most keyboards.

I hope you enjoy this CD.
